

INFIRAY OUTDOOR
BOLT TL25SE

COMPACT BOLT-ACTION OPTIMIZED THERMAL OPTIC

The InfiRay Outdoor BOLT SE is built on the success of previous BOLT models with a focus on simplicity and ease of use. Designed with users of traditional rifle scopes in mind, the BOLT SE offers a familiar profile and tactile controls. InfiRay's industry-leading 12 μm 384x288 Micro II sensor, paired with a 1536x1080 AMOLED display provides exceptional clarity across all zoom levels and is adjusted via an intuitive zoom ring. Hunters can appreciate the ability to use common mounting systems or the included 30mm rings to mount on bolt-action rifles or other platforms. An internal battery with USB-C charging eliminates the need to change batteries in the field. Photo and video recording with 32GB of internal storage and mobile app connectivity with wireless streaming allows users to share their experiences with friends and family.

Operation Temperature		-4°F ~ 122°F	
Max. Recoil		1000 g/s ² (300 Win./7mm Mag)	

Internal Battery with USB-C Charging

An internal battery means there is no need to change batteries in the field – simply recharge through the provided USB-C cable.

Simplified Control Turret

Navigate the features and software with a simple turn-and-push user interface.

Intuitive Zoom Control

Like a traditional rifle scope, the magnification control ring is located just forward of the eyepiece and provides digital zoom up to 8x.

32GB internal Storage

With Wifi streaming and crystal clear audio

High-Contrast AMOLED Display

1536x1080 screen for precision shooting and easy viewing.

30mm Main Tube Design

Allows versatile and simple mounting with commercially available mounts and rings (30mm high rings included)

Manual Focus f0.9 Lens

The 25mm germanium lens provides a native 2X base magnification.

Textured Focus Ring

Rubberized and textured focus ring allows for easy grip (even with gloves) and precise manual focus control.

The InfiRay Outdoor BOLT SE was designed with familiarity, intuitive controls, and standardization in mind. The electronic zoom control is located just forward of the eyepiece, providing a familiar feel to a traditional daylight rifle scope. A 30mm main tube also allows hunters to tap into a wide range of existing mounting solutions.
