

SAFETY DATA SHEET

Section 1. Chemical Product and Company Identification		
Products Name	Rechargeable Lithium-ion battery	
Mode/Type reference	IBP-2(36AQ517-01)	
Nominal Voltage	3.6V	
Typical Capacity	3100mAh	
Typical Power	11.16Wh	
Manufacture Name	Dongguan Large Electronics Co.,Ltd	
Address	No. 8 Jingyi Road, Dongcheng District, Dongguan City, Guangdong Province, China	
Postcode	523017	
Emergency Telephone No.	+86-769-22810105	
Technical Support Telephone No.	+86-769-22810105	
Fax	+86-769-22813796	
E-mail	jcrz@juda.cn	
Issue Date	2022-01-01	

Section 2. Hazards Identification

Classification

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200) this product is an article which is a sealed battery and as such does not require an MSDS per the OSHA hazard communication standard unless ruptured. The hazards indicated are for a ruptured battery.

Skin corrosion/irritation	Category 4
Serious eye damage/eye	Category4
Skin sensitization	Category3
Carcinogenicity	Category5
Specific target organ toxicity (repeated exposure)	Category3

GHS Label elements, including precautionary statements Emergency Overview

Signal word: Danger **Hazard Statements** Causes skin irritation

Causes serious eye irritation

May cause an allergic skin reaction

May cause cancer

SAFETY DATA SHEET

This product is an article which contains a chemical substance. Safety information is given for exposure to the article as sold.

Intended use of the product should not result in exposure to the chemical substance This is a battery. In case of rupture: the above hazards exist.

Appearance: Black	Physical State: Cylinder	Odor: Odorless	
Precautionary Statements - Prevention	Obtain special instructions before use Do not handle until all safety precautions have Use personal protective equipment as required Wash face, hands and any exposed skin thoro Contaminated work clothing should not be allow Wear protective gloves Do not breathe dust/fume/gas/mist/vapors/spra	d ughly after handling wed out of the workplace	
	Do not eat, drink or smoke when using this pro		
Precautionary Statements - Response IF exposed or concerned: Get medical advice/attention Specific treatment (see supplemental first aid instructions on this laborate lenses, if present and easy to do. Continue rinsing If eye irritation per medical advice/attention IF ON SKIN: Wash with plenty of soap and water Take off contaminated clothing and wash before reuse If skin irritation or rash occurs: Get medical advice/attention		nstructions on this label) veral minutes. Remove contact sing If eye irritation persists: Get ter re reuse	
Precautionary Statements - Storage	Store locked up		
Precautionary Statements - Disposal	Dispose of contents/container to an approved waste disposal plant		
Hazards not otherwise classified (HNOC)	Not applicable		
Unknown Toxicity	-		
Other	May be harmful if swallowed Very toxic to aquatic life with long lasting effects		
information	Repeated or prolonged skin contact may cause allergic reactions with susceptible

	persons
Interactions	
with Other	No information available.
Chemicals	

Section 3. Composition/Information on Ingredients

Chemical Name	CAS Number	Weight-%	Trade Secret
Lithium Cobalt Dioxide	12190-79-3	12.5~15.5 %	
Lithium manganate	12057-17-9	12.5~15.5 %	
Nickel(III) oxide	1314-06-3	12.5~15.5 %	
Polyvinylidene fluoride (PVdF)	24937-79-9	0.5%~1.5%	
Aluminium foil	7429-90-5	3%~4%	
Graphite (C)	7440-44-0	17 %~19%	
Styrene Butadiene Rubber(SBR)	9003-55-8	≤1%	
Carboxy Methylated Cellulose(CMC)	9004-32-4	≤1%	
Copper foil	7440-50-8	6.5%~7.5%	
Polyethylene (PE)	9002-88-4	3.5%~4.5%	
Electrolyte (*)	21324-40-3/623-53-0	11%~14 %	
Iron(Fe)	7439-89-6	9%-10.5%	
Chromium(Cr)	7440-47-3	2%~2.5%	
Nickel(Ni)	7440-02-0	0.75~1.25%	

^(*) Main ingredients: Lithium hexafluorophosphate, organic carbonates.

Section 4. First Aid Measures

First aid is upon rupture of sealed battery.

Eye contact: If symptoms persist, call a physician. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Remove contact lenses, if present and easy to do.

Continue rinsing. Do not rub affected area.

General Advice

Skin contact: Wash off immediately with soap and plenty of water for at least 15 minutes. In the case of skin irritation or allergic reactions see a physician. May cause an allergic skin reaction.

Inhalation: Remove to fresh air. If symptoms persist, call a physician. Get medical attention immediately if symptoms occur.

Ingestion: Do NOT induce vomiting. Rinse mouth immediately and drink plenty of water. Never give anything by mouth to an unconscious person.

Call a physician.

^{*} The exact percentage (concentration) of composition has been withheld as a trade secret.

SAFETY DATA SHEET

	Self-protection of the first aider: Avoid contact with skin, eyes or clothing. Use		
	personal protective equipment as required. Wear personal protective		
	clothing (see section 8).

^{*}ACGIH TLV: American Conference of Governmental Industrial Hygienists - Threshold Limit Value OSHA PEL: Occupational Safety and Health Administration - Permissible Exposure Limits NIOSH IDLH Immediately Dangerous to Life or Health

Other Exposure Guidelines

Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962 (11th Cir., 1992) See section 15 for national exposure control parameters

Engineering Controls	Keep away from heat and open flame.
-----------------------------	-------------------------------------

SAFETY DATA SHEET

Ventilation	Not necessary under conditions of normal use. In case of abuse, use adequate mechanical ventilation (local exhaust) for the battery that vent gas or fumes.	
Respiratory Protection	Not necessary under conditions of normal use. If battery is burning, leave the area immediately. During fire fighting fireman should use self-contained breathing, full-face respiratory equipment. Fires may be fought but only from safe fire fighting distance, evacuate all persons from the area of fire immediately.	
Eye Protection	Not necessary under conditions of normal use. Use safety glasses with side shields if handling a leaking or ruptured battery.	
Body Protection	Not necessary under conditions of normal use. Use rubber apron and protective working in case of handling a leaking of ruptured battery.	
Protective Gloves	Not necessary under conditions of normal use. Use chemical resistant rubber gloves if handling a leaking or ruptured battery.	
Others Use good chemical hygiene practice. Wash hands thoroughly after cleaning-up a battery spill caused by leaking battery. No eating, drinking, or smoking in battery storage area.		

Section 9. Physical and Chemical Properties

Information on basic physical and chemical properties

State	No data available
Colour	No data available
Odor	No data available
Odor Threshold	No data available
рН	No data available
Melting / freezing point	No data available
Boiling point / boiling range	No data available
Flash Point	No data available
Evaporation Rate	No data available
Flammability (solid, gas)	No data available
Explosion Limits(vol% in air)	No data available
Vapor pressure	No data available
Vapor density	No data available
Specific Gravity	No data available
Water Solubility	No data available
Solubility in other solvents	No data available
Partition coefficient: n-octanol/water	0.0001
Autoignition temperature	130 ℃
Decomposition temperature	No data available
Kinematic viscosity	No data available

SAFETY DATA SHEET

Dynamic viscosity		0.0001
Explosive properties		No data available
Oxidizing Properties		No data available
Other Information		The data available
Softeni	ng Point	No data available
VOC Co	ntent (%)	No data available
Partic	le Size	No data available
Particle Size	e Distribution	No data available
Section 10. Sta	bility and	Reactivity
Stability	Stable	
Conditions to Avoid	Do not heat, t	nrow into fire, disassemble, short circuit, immerse in water or overcharge, etc.
Incompatibility	None during r	normal operation. Avoid exposure heat, open flame and corrosives.
Hazardous Polymerization	Hazardous po	olymerization does not occur.
Hazardous Decomposition Products	The battery may release irritative gas once the electrolyte leakage.	
Section 11. To	xicologica	l Information
Information on likely	routes of exp	osure
Product Information		duct does not present an acute toxicity hazard based on known or oplied information. In case of rupture:.
Inhalation Specific		ecific test data for the substance or mixture is not available. May cause ation of respiratory tract.
Specific test of an irritant base		ecific test data for the substance or mixture is not available. Expected to be irritant based on components. Irritating to eyes. May cause redness, ling, and pain. May cause temporary eye irritation.
Skin Contact Specific test an irritant base		ecific test data for the substance or mixture is not available. Expected to be irritant based on components. Irritating to skin. Prolonged contact may use redness and irritation.
Ingestion cause irritation		ecific test data for the substance or mixture is not available. Ingestion may use irritation to mucous membranes. Ingestion may cause gastrointestinal ation, nausea, vomiting and diarrhea.
Component Information		
_		mptoms: Erythema (skin redness). May cause redness and tearing of the es. Itching. Rashes. Hives.

SAFETY DATA SHEET

Delayed and immediate effects as well as chronic effects from short and long-term exposure **Sensitization:** May cause sensitization of susceptible persons. May cause sensitization by skin contact.

Mutagenic Effects: No information available.

Carcinogenicity: The table below indicates whether each agency has listed

any ingredient as a carcinogen

Chemical Name	ACGIH	IARC	NTP	OSHA
Lithium Cobalt				
Oxide (CoLiO2)	A3	Group 2B		X
12190-79-3				

ACGIH (American Conference of Governmental Industrial Hygienists)

A3 - Animal Carcinogen

IARC (International Agency for Research on Cancer)

Group 1 - Carcinogenic to Humans

Group 2B - Possibly Carcinogenic to Humans

Group 3 - Not Classifiable as to Carcinogenicity in Humans

OSHA (Occupational Safety and Health Administration of the US Department of Labor)

X - Present

Reproductive Toxicity	No information available.	
STOT - single exposure	No information available.	
STOT – repeated exposure	Causes damage to organs through prolonged or repeated exposure. Based on classification criteria from the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200), this product has been determined to cause systemic target organ toxicity from chronic or repeated exposure. (STOT RE).	
Chronic Toxicity	Contains a known or suspected carcinogen. Avoid repeated exposure. Prolonged exposure may cause chronic effects. May cause adverse liver effects.	
Target Organ Effects	Respiratory system. Eyes. Skin. Gastrointestinal tract (GI). Central Vascular System (CVS).Kidney. Liver. Lungs. Heart.	
Aspiration Hazard	No information available.	
Numerical measures of toxicity Product Information		

The values which are on the		
right are calculated based on		
chapter 3.1 of the GHS		
document.		

ATEmix (oral)
ATEmix (dermal)

ATEmix (inhalation-dust/mist)

Section 12. Ecological Information

SAFETY DATA SHEET

Ecotoxicity

Very toxic to aquatic life with long lasting effects

		mykiss)		
		96h LC50: = 0.2mg/L (Pimephales promelas)		
		96h LC50: < 0.3 mg/L (Pimephales promelas)		

Persistence and Degradability	No information available.	
Bioaccumulation	No information available	
Other adverse effects	No information available	

Section 13. Disposal Considerations

Waste treatment methods

Disposal methods: This material, as supplied, is not a hazardous waste according to Federal regulations (40CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

Contaminated Packaging: Dispose of in accordance with federal, state and local regulations.

California Hazardous Waste Codes 141

This product contains one or more substances that are listed with the State of California as a hazardous waste

Chemical Name	California Hazardous Waste
Lithium Cobalt Oxide (CoLiO2)	Toxic
12190-79-3	
Copper	Toxic
7440-50-8	
Aluminum	Ignitable powder
7429-90-5	

Section 14. Transport Information

The Rechargeable Lithium Ion Battery stated in appendix is made in compliance to packing Instruction of PI965

SAFETY DATA SHEET

section IB or PI966 section II or PI967 section II stated in the latest edition of the IATA Dangerous Goods Regulations.

With regard to transportation, following regulations are cited and considered:

- -The International Civil Aviation Organization (ICAO) Technical Instructions, packing instructions of PI 965 section II or PI 967 section II.
- The International Air transport Association (IATA) Dangerous Goods Regulations, packing instructions of 965 section IB or 966 section II or 967 section II (63rd Edition, 2022).
- Special provision 188 of the International Maritime Dangerous Goods (IMDG) Code (Amendment 39-18 Edition).
- The US Hazardous Materials Regulation 49 CRF (Code of Federal Regulations), sections 173-185 Lithium batteries and cells.
- UN Recommendations on transportation of Dangerous Goods, UN38.3 Manual of Tests and Criteria for lithium battery
- UN Number: UN3480, UN3481

Additional Requirements for air transport:

- 1. Cells and batteries must be protected so as to prevent short circuits. This includes protection against contact with conductive materials within the same packaging that could lead to a short circuit.
- 2. Cells and batteries must be manufactured under a quality management program.
- 3. The Watt-hour rating must be marked on the outside of the battery case except those manufactured before 1 January 2009.
- 4. Cells and batteries must be packed in strong outer packaging. (applicable to PI 965 only)
- 5. Maximum number of cells per package must not be more than 8 cells. (applicable to PI 965 only)
- 6. Cells and batteries must be packed in inner packaging that completely enclose the cell or battery. To provide protection from damage or compression to the batteries, the inner packaging must be placed in a strong rigid outer packaging of one of the packaging types shown below.
- 7. Each package must be capable of withstanding a 1.2 m drop test in any orientation without (applicable to PI 965 only):
- damage to cells or batteries contained therein;
- shifting of the contents so as to allow battery to battery (or cell to cell) contact;
- release of contents.
- 8. Each consignment must be accompanied with a document with an indication that:
- the package contains lithium ion cells or batteries;
- the package must be handled with care and that a flammability hazard exists if the package is damaged;
- special procedures must be followed in the event the package is damaged, to include inspection and repacking if necessary; and a telephone number for additional information.
- 9. Each package must be labeled with a lithium battery handling label (Figure 7.4.H).
- 10. A Shipper's Declaration for Dangerous Goods is not required.
- 11. The words "Lithium ion batteries in compliance with Section II of PI 965" must be included on the air waybill, when an air waybill is used. The information should be shown in the "Nature and

Quantity of Goods" box of the air waybill. (applicable to PI 965 only)

12. Any person preparing or offering cells for transport must receive adequate instruction on these requirements

SAFETY DATA SHEET

commensurate with their responsibilities.

- 13. The equipment must be secured against movement within the outer packaging and must be equipped with an effective means of preventing accidental activation. (applicable to PI 966 only)
- 14. The maximum number of batteries in each package must be the minimum number required to power the equipment plus two spares. (applicable to PI 966 only)
- 15. The words "Lithium ion batteries in compliance with Section II of PI 966" must be included on the air waybill, when an air waybill is used. The information should be shown in the "Nature and Quantity of Goods" box of the air waybill. (applicable to PI 966 only).
