

FOR IMMEDIATE RELEASE

InfiRay Outdoor Announces new RH25V2 and RL25V2 Multi-function Thermal Optics

(Lewisville, Texas) iRayUSA, the United States distributor of InfiRay Outdoor thermal optics, is excited to announce the second generation of the RICO MICRO Multi-function Thermal Optic, available in 640 or 384 resolution models.

The in its newest variation, the RICO (Rugged Infrared Compact Optic) MICRO, our most popular family of thermal optics has been updated to provide users with powerful enhancements while retaining the versatility that our customers love; use it as a handheld scanner, helmet-mounted monocular, weapon sight, or thermal clip-on. New models feature a machined magnesium alloy housing to reduce weight. An added USB-C port now allows for simplified file transfer and the ability to power the MICRO from an external battery pack. The internal video recorder now includes crisp audio and 64 GB of internal storage. An improved 1440×1080 AMOLED display and is paired with a new eyepiece that offers more comfortable viewing and clip-on compatibility for optics up to up to 6× magnification. The MICRO V2 also uses InfiRay's latest 12 µm sensor, an improved NETD rating of ≤18mK, and a manual-focus f/1.0 objective lens to create an image that is unlike anything in its class. "We're excited to announce the new V2 models of the MICRO - evolving a platform our customers trust and love with new features that improve image quality and user experience," said Pliny Gale, iRayUSA Marketing & Communications Manager. "The new RL25V2 can now be used as a clip-on thermal - a highly requested feature that was only available in the 640 model in the first generation.

The RICO MICRO 640×512 25mm (RH25V2) will retail for \$4,999 and the 384×288 version (RL25V2) will retail for \$2,999. Both models are now beginning to ship to dealers and will be available in mid-October. To learn more about the RICO MICRO V2, please visit irayusa.com/micro

About iRayUSA

iRayUSA is the United States distributor of InfiRay Outdoor thermal night vision devices. InfiRay Outdoor is the world's leading manufacturer of thermal sensors and thermal optics with over two-hundred patents and the first commercially available 1280 resolution thermal weapon sight. Established in 2020 by thermal industry experts with more than a decade of experience, iRayUSA serves as the US sales, marketing, support, and distribution headquarters for InfiRay Outdoor thermal weapon sights and thermal monoculars. With a staff of experienced night hunters, iRayUSA understands the needs of the customer and is proud to offer the best warranty and support in the thermal optics industry.
